

Most Outrageous, Unique Wedding Invitations

Outrageous and unique wedding invitations come in many varieties. Are these unique wedding invitations too over the top or are they a sign that weddings are becoming more non-traditional these days? It all depends on personal preference.

Unique Wedding Invitations-Examples

Some couples decide to send scroll invitations that guests receive in tubes rather than envelopes. For the couple planning a Renaissance-style wedding, these invitations are a perfect reflection of the event theme.

Having a destination wedding? Go the route that a few couples do and send a small suitcase or travel wallet to your guests. These stylish wedding invitations will really make a memorable way to mark the date.

Some concert fans may choose to use a faux concert ticket as their wedding invitation, with the names of bride and groom names as the main event.

These are just three examples of outrageous and stylish wedding invitations that are unique to a bride and groom's personality and style. The fact is, anything goes for invitations. Seemingly nothing, with the exception of e-mailed wedding invitations, are off limits.

Putting Personality into Save the Date Cards

Rather than focusing on making the wedding invitation over-the-top, many couples are now choosing to put personality and spontaneity into save-the-date cards that are more casual and fun. Mailing a homemade DVD announcing the wedding and other details is one way to show off the couple's personality through save-the-date cards.

Another unique save-the-date "method" is to hire a skywriter to write the date of the wedding in the sky. The couple can then call local friends and family to look up in the sky and share in their amazing news.

No matter if you are designing stylish wedding invitations or cool save the date cards, your choice conveys the mood of the wedding. It is a memorable way to show the bride and groom's personality to guests.

The best way to order either traditional or unique wedding invitations is through online stationery stores, which have more of a selection to choose from and are more flexible to customize an invitation to match your taste, no matter what your style.
